Barking & Dagenham

highview

Client:
Purdy

Location:
Dagenham

Contract value:
£200k

Contract Duration:
Feb - Apr 2020

Sector:
Commercial

Summary:
Ground Floor
Remodelling

Working for Purdy on behalf of the London Borough of Barking & Dagenham, the Highview Internals team completed a full ground floor remodelling to 1,300 sqft of this 4 storey commercial property in Dagenham.

Originally purposed as a science facility, containing laboratories and research spaces, our works have involved a full fit-out, creating new kitchens, bathrooms and offices, with full finishes including suspended ceilings.

Despite a delay to programme caused by Covid-19, the team worked hard to safely complete the project in just over 2 months.

The project was delivered with a very high quality finish, enabling the Council to enjoy using the remodelled building as their new offices.
