## highview

**Client:**  
Bower Park Academy

**Location:**  
Romford

**Contract value:**  
£280k

**Contract Duration:**  
12 Weeks

**Sector:**  
Education

**Summary:** Multiple  
Flat Roof  
Replacements

Bower Park Academy directly appointed Highview as to deliver a full roof refurbishment programme during the summer recess.

Acting as Principle Contractor, we refurbished 6 roof areas using a Bauder Total Tapered System totaling 1050m<sup>2</sup>, to enable build delivery to mitigate cost increases for materials during the period, we proposed and delivered a crane load out for all materials to all roof areas meaning that the client managed to maintain their budget

Close liaison with the School management team was imperative, so that we were able to carefully phase the use of the various building access points and playgrounds, once the academic term commenced towards the end of the programme in September.

This additional phase roof areas has totally transformed there appearance, providing a durable new system that will last for many years to come.
