

Waitrose

highview

Client:
SBS

Location:
Southampton

Contract value:
£25k

Contract Duration:
2 weeks

Sector:
Commercial

Summary:
Structural deck repairs
and Liquid Overlay with
Proteus Waterproofing

Highview were appointed to carry out an investigation into the Structural integrity of the roof structure to the canopy over the Waitrose shopping centre in Southampton

On completion of these investigations we were then instructed to carry out all the required repairs to the deck prior to the installation of the Proteus Liquid Waterproofing system

The project was extremely time sensitive due to this being a live shopping centre with works programmed around the busiest periods for shoppers.

This was our first scheme with a new client and led onto a number of additional schemes
